BIOGRAPHY

I was born on May 9th 1994 in Ahmedabad, I've graduated High School from The H.B.Kapadia New High School and currently pursing B.Tech Computer Engineering at Ganpat University, Kherva. I am highly interested in Web Development, Networks, Data Analysis and Open Source projects. During Jan – April 2014 I made a messaging project based on WebSockets in JavaEE. During this period I also gave seminar on OpenStack and Big Data.. Presently I am preparing for Cisco certification and working on Cloud Printing Project. I've also participated in IEEE paper contest 2014.I am also pursing some online courses related to Data Analysis like R Programming, Functional Programming by Scala etc.

Besides technical aspects, I am also taking online management courses, with a goal to increase my management and communication skills.

IEEE ACTIVITIES

STUDENT BRANCHE: Volunteer for event **Data Structure** held on 12th April 2014

CONFERENCES: **conf.kde.in** 2014 held on 21st -23rd Feb 2014 at DAIICT

MAJOR ACCOMPLISHMENTS

1. Leading Digital literacy module at NGO " YUVA Unstoppable"
2. Analysis and testing of project Employment Work Management System at National Informatics Center – Mehsana
3. Contributor at Linux.org
4. Convergence-14(UVPCE Tech Fest) Event coordinator

POSITION STATEMENT

Plans:

➔ Developing a Branch Feedback management system, which will reduce efforts to collect data from all branches
➔ Developing IEEE member communication portal, which would help all IEEE members to communicate via single channel instead of creating google groups.
➔ Developing and Managing Technology based groups like, IEEE Java groups, IEEE php group etc.
➔ Developing scheme that can increase student participations.
➔ And lastly I want to make my student branch more active in activities, workshops, talks etc. by conducting some events by myself.

Strategies:

➔ Contacting other Region like (Region 4) for guidance and their plans.
➔ Communicating with Technology based groups and inviting them to our Section
➔ Contacting local companies, firms to join and Help local Groups.
➔ Providing digital certificate can reduce cost, if the budget of the event is less.

BRANCH COUNSELOR'S RECOMMENDATION

I recommend Mr. Abhishek as a member of Student Activity Team for Gujarat Section. I know him personally as a subject teacher. He is very active and hard working. He likes to work on emerging technology. He has ability to work in the team. He has shown his capability by participating in various activities within and outside the Institution. His enthusiasm and interest helps IEEE section lot in the management and arrangement of student related programs.

- Prof. Kirit. J. Modi
